MONEY, STOCKS AND GRAIN

A Moderately Active but Weak Market Is the Report from New York.

At Indianapolis All Grains Were Steady and Firm, and No. 2 Red Wheat Advanced 1 Cent-Quotations on General Produce.

MONEY AND STOCKS.

4 Moderate Degree of Activity, the Prevailing Feature Being Weakness. At New York, Saturday, money on call was easy at 142@2 per cent., closing offered at 2 per cent.

Prime mercantile paper, 34 @5 per cent. Sterling exchange was quiet, but firm at \$4.874 for sixty-day bills and \$4.88% for demand.

The total sales of stocks were 158,046 shares, including the following: Atchison, 14.470; Delaware, Lackawanna & Western, 2,300; Erie. 7,150; Louisville & Nashville, 5,350; Northern Pacific preferred, 14,730; New England, 5,550; Reading, 40,525; St. Paul, 12,410; Union Pacific, 3,000; Western Union, 4,025.

The stock market was moderately active, but being under the hammer for most of the session was weak almost throughout. The losses were material in all of the leading shares. Reading. St. Paul, Northern Pacific preferred, Atchison and New England were the active stocks, but they moved with the rest of the list and the losses were remarkably uniform. The usual rally toward the close failed to come, notwithstanding the favorable nature of the bank statement, which showed a large gain in cash and an increase in the surplus reserve of over \$3,000,000. There were no special features and the coal stocks gave way with the rest in the late deal ings, the market finally closing active and weak at the lowest prices of the day. The final changes are all losses, and they ex tend to 1 per cent. in Jersey Central, Lake

Shore and Northern Pacific preferred. Railroad bonds were fairly active during the session, but while there was a firm temper, on the whole few changes of note occurred and the activity and weakness in the Atchison incomes gave a rather ragged appearance to the dealings. This was the only feature of importance, and while the total transactions reached \$969,000, \$248,000 were in the Atchison incomes. Big Sandy Bixes rose 41/2 to 92. Government bonds were dull and steady.

State bonds were dull and steady. Chicago Board of Trade Votes to Distribute Market Quotations.

Revival of the Once Tabooed Practice That Will Give Bucket-Shops What They Want -Plunger Pardridge Ruled the Market.

TRADING AT CHICAGO.

Both Wheat and Corn Retire from Friday's Advance. CHICAGO, April 23.-Balloting on th quotation question seemed to interest more people on Change to-day than the quotations themselves. The fact that Edward Pardridge was making very much of a oneman market of it drove many of the members to the voting tables to cast a ballot "for" the revival of a general distribution of market figures. The members not only voted at the tables, but stayed there to influence others. The proposition carried by a count of 588 to 433. To-night, compared with last evening, wheat was 4c lower, corn 214c, oats &c, and pork 74c, with lard and ribs unchanged. The chief bearish influence was the bright and warmer weather over most of the country, giving a better outlook, not only for the winter grain but for seeding operations, and largely discounting Prime's crop review, which was quite gloomy. Opening prices were 4c under last evening's, and there was a decline of 4c more, then a rally of 4c, and minor fluctuations to the close, which was steady. Many of the big buyers of yesterday were free sellers to-day. Logan was, perhaps, the most prominent of this class, and much of the big line he took yesterday on the bad-weather scare was put out again on the improved outlook. Pardridge was a free seller of July yesterday, and covered a good deal on the break to-day. The corn trade felt the effect of the fine

weather. The receipts were seventy cars more than estimated, reaching 230 cars. The market was very dull, except at rare intervals. The opening prices were % @ 120 below last night's figures. Moderate offerings carried the quotations off a fraction more, after which there was a raily of 4c, succeeded by a decline of 4c, with a subsequent weakening of 3c. The feature in oats was the buying of May and selling of June and July by a

weakening of 16 @ 4c. The trade in provisions was about as on the previous days of the week-liquidation of long lines of barreled pork and steadiness in lard and ribs. Business was light and fluctuations narrow. There was a stronger tone to lake freights. and rates advanced 4014c for wheat and 112c for corn to Buffalo. The leading fut-

The Chasm Bridged. Guthrie (O. T.) Special. A pathetic scene is reported from the Chickasaw reservation. As a wagon train of Texas home-seekers was passing along the trail leading to the new lands yesterday, they came up with a white-topped wagon drawn alongside of the road. Back of the wagon a man was wearily digging. and from within the canvas came the

sounds of a woman sobbing. "Hello! stranger, what is up" called the first Texan, getting down from his "Our little one is dead, and I'm diggin' grave," was the answer, and a gray-beardelevator, 984 @9934c afloat, 984 @9934c ed, broken-looking man raised from his f. o. b.; No. 3 red, 93c; ungraded red, 84@ task. The questioner had been a Southern soldier, and carried a bullet in his cheekbone. The other had upon his breast the

insignia of the Grand Army, but all this was forgotten as the tall man took the other by the hand and said: "Friend, come. I have lost dear ones; you must let me do that work." The rest of the of 25sc on April, with shorts covering and | party crowded around and attempted to comfort the mother, who was holding the last of her curly-headed little boy to her breast. The grave was dug, a rude cottin made and as the body was placed into the grave a young girl read from the Bible and the shaggy-bearded Texas boomer offered

Over the grave was piled a great heap of stones, on one of which was carved, "Our Baby," and the old soldier of the North went on toward the promised land in the company of his new found friends from the

New York Recorder. Alphabet Sparks, of the Newspaper Clipping Company, has lately had an odd experience in his peculiar line. He has had orders from \$75 to \$150 a week in \$1 orders for twenty clippings from young ladies, or ladies who prefix Miss to their names, and who are in the original big list of the Four Hundred, on the most extraordinary topics for young ladies to be considering-dogs, horses, Monte Carlo, pugilism, boxing and other subjects supposed to be uninteresting to the fair and fashionable ones. He explains it by the discovery he made that this way of informing themselves on topics in which they know their friends are most interested, so as to be able to talk intelligently to them on their own subjects, is really a fashionable craze among the ladies now. And it strikes me there is a good deal of method in this particular madness of the fashionable young woman wishing to make a catch.

Russis, Italy, Sweden and Holland, at Least, Will Be Represented-Gossip About the Czarina and Other Members of Royality. [Copyright, 1892, by the New York Associated Press.]

BERLIN, April 23.-The Easter holiday made no difference to the Emperor. He worked during all the holiday season from early in the morning until late at night, gave the usual audiences to the ministers, and took only a short ride or drive in the afternoon. The approaches to the castle were every day surrounded by holidaymakers from the provinces, eager to get a view of the Emperor. On Thursday morning, accompanied by his aid-de-camp, Mayor Von Moltke, who, since the death of Field Marshal Count Von Moltke, has been favored by the Emperor, his Majesty went to Fisenach, where he was a guest of his uncle, the Grand Duke of Saxe Wimar. The party enjoyed good shooting on the Grand Duke's estates. Upon the receipt of the news of the death of the Duchess of Mecklenberg the Emperor immediately cancelled his arrangements for the shooting and announced his intention to attend the funeral.

The Empress, who is in a delicate condition, was removed from Berlin to her favorite residence at l'otsdam on Friday. Her six children accompanied her. The absence of a garden at the Berlin schloss necessitates the children being daily driven to the chateau Beilevne, a part of the Thiergarten, during their residence in Berlin. This explains the preference of the Empress and her family for Potsdam, where the grounds around the palace are extensive.

The Empress is at present very solicitous about the health of the Czarina. Unfavorable reports have been received at the Berlin court. The Czarina expects to be acconched in June. She is much affected by the condition of the Grand Duke George, her son, whose lung disease is becoming worse, and who is now believed to be in a hopeless condition. The Czarına is attending him. The condition of the Grand Duckess Olga, her daughter, whose spine was injured in the Borki disaster, shows

signs of increasing gravity. The Emperor has arranged to start on month's whaling trip July 9. A telegram received in Berlin to-day announces that the Czar has finally consented to visit Potsdam, where he will remain four days. Political circles are agitated over the success of Emperor William in inducing the Czar to visit Potsdam. The visit will undoubtedly greatly influence the relations between the two empires. It has a!ready been intimated to the German journals that it would be advisable for them to cease their attacks upon Russia.

A GATHERING OF ROYALTY. The approaching visits of the members of royal families, with the consequent influx of society, promises to give considerable stimulus to the trade of Berlin. It is now finally settled that, besides the Czar, the King and Queen of Italy, the King and Queen of Sweden and the Queen Regent and the young Queen of Holland will arrive before the middle of June. The Queen Regent of Holland and the Queen will sojourn in the Black Forest for a time before coming to Potsdam. The health of the young Queen is not very robust, and it is thought that the air of the Black Forest will have a very beneficial effect upon her. Rumors have been circulated that the King and Queen of Italy will not come to Berlin, owing to the political crisis in Italy. These reports, however, are semi-officially depied. It is known here that the Emperor is anxions to have a conference with King Humbert, as he fears that the attacks upon the Italian military credits will force King Humbert to reduce Italy's Enropean military expenditures and thus weaken the power of the Dreibund. The fact that the Italian Ministry has agreed that only expenditures for the military in the colonies shall be reduced is largely due to the insistence of the German minister at Rome, supported by the Austrians.

Lieutenant Clark, of the Ninth United States Cavalry, who has been serving a year in the Eleventh Hussars, at Dusseldorf, arrived in Berlin on Monday. He was given an audience by the Emperor, on Wednes-day, at which he bade his Majesty farewell, prior to his return to the United States. The Emperor treated him in a most friendly manner, as he always does Americans. He inquired after Lieutenant John Bigelow, of the Tenth Cavalry, who is an old schoolmate of his. Lieutenant Clarke has thoroughly studied the work and training of the German cavalry, which he declares to be the best in the world. He attributes the efficiency chiefly to the marvelous system of breaking and training young horses which prevails here. The discipline of the German army, he says, is far more strict than that of the American army, but he did not see the slightest cruelty on the part of the officers. Lieu-

tenant Clarke will sail for New York next An agitation has been started against the project for a lottery to cover the expense of beautifying the approaches to the Schloss and to greatly alter and improve the Unter den Linden. The opponents of the project declare that the lotteries are increasing to an alarming excent and that the growing love thereof among the people will result in a pernicious influence upon the prosperity of the country. The Emperor is personally opposed to the lottery scheme and would himself meet the expense, but the heavy drain on his own exchequer, in order to pay for refurnishing a number of the guests' rooms in the Schloss

here, precludes him from doing so. The vineyards in Alsace-Loraine nearly suffered the fate of vineyards in France. From mild weather the temperature suddenly dropped to 70 below zero. Emormous damage was done in the vicinity of Strasburg, but the vine-growers in the Kolimar district announce that great success followed their burning of tar in the vincinity of the vineyards. The fire caused the temperature to rise, and the result was that all the vines and fruit trees were saved. A double execution took place to-day at Goerlitz. The condemned men were two workmen named Knoll and Heydrich, who murdered a widow named Buchert, at Leopoldshain, in December last. They were executed by Reindel, the headsman, who has now beheaded tifty persons. Princess Mary Margaret of Prussia, is announced to be engaged to Prince William, hereditary Grand Duke of Luxem-

The Emperor has donated 30,000 marks to the Society for the Encouragement of Outdoor Games in Germany. At the same time he expressed his keen interest in such healthy recreation. The German press has circulated a story that triching had been discovered in American pork at Stettin, and that Prot. Virchow had gone to investigate the matter. Professor Virchow now publishes a card stating that the entire story is untrue.

That great big one is for medicines, without which no woman should ever stir a step for fear of accident. This long, narrow pocket is for a lead pencil. This bag-like pocket with a button at the top is for parcels. This fat little pocket is for my gloves. These flat pockets are for letters and important business documents. And the other three are for any little trifles that I may happen to have with me. You see, with a garment systematized as this waist is, that everything has a place, and everything can easily be in its place if a woman only can learn to remember what her different pockets are for.
